

The Six Servants

Re-imagining Relationship

with Penny Allport

Through the oral tradition of storytelling, meet The Six Servants, archetypal characters re-discovered in a timeless European teaching myth. In a circle of inquiry, through the theatre of embodied imagination, dream tending, creative expression, writing, and ceremony, we evolve outdated relational habits and grow in our latent capacities and longings to relate freshly with all of life.

The Six Servants are allies and guides here to serve the healthy masculine in meeting the divine feminine within each of us. Through practices of embodied awareness, we directly experience and receive the perceptual gifts of these characters in daily life.

Relationships, as the most rigorous spiritual practice, are re-enchanted through the eternal imagination and evolving journey of the inner union.

Through playful curiosity and care, we discover new ways of meeting and being met by the world, in the fullness of our unique and embodied soulful expression.

Alternating Wednesdays 6:30 - 9:00 p.m.

February 11 & 25, March 11 & 25,
